Tab 7 – Intervention Selection Form

Subpopulation: FMS Men H

Ranking: 20

Name of Intervention	VOICES/VOCES: Video Opportunities for Innovative Condom Education and Safer Sex C-14. FS-46
Risk Behavior(s)	Unprotected sex
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> • Negative attitudes toward condom use • Poor negotiation skills • Group Norms
Intended Immediate Outcomes	Increase intent to use condoms Increase negotiation skills Increase access to condoms
Type	GLI
Setting	STD clinics
Is this intervention currently being provided in your planning area?	No
Rationale for Selecting this Intervention:	Ethnic/ gender and Culturally specific. Improves attitudes toward condom

Tab 7 – Intervention Selection Form

Subpopulation: FMS Men H Ranking: 20

Name of Intervention	Condom Skills Education and Sexually Transmitted Disease Reinfection C-7
Risk Behavior(s)	Unprotected sex
Influencing Factor(s) or FIBs	Negative attitudes toward condom use
Intended Immediate Outcomes	Increase intent to use condoms
Type	GLI
Setting	STD clinic waiting rooms
Is this intervention currently being provided in your planning area?	no
Rationale for Selecting this Intervention:	Addresses population's major barrier to safer sex

Tab 7 – Intervention Selection Form

Subpopulation: FMS Men H Ranking: 20

Name of Intervention	Group Counseling at STD Clinics to Promote use of Condoms C-8
Risk Behavior(s)	Unprotected sex
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> Negative attitudes toward condom use.
Intended Immediate Outcomes	Increase intent to use condoms
Type	GLI
Setting	STD clinic waiting room
Is this intervention currently being provided in your planning area?	No
Rationale for Selecting this Intervention:	This population reported low condom use, and a negative attitude toward using them

Tab 7 – Intervention Selection Form

Subpopulation: FMS Men H Ranking: 20

Name of Intervention	HIV Education, Testing and Counseling C-15
Risk Behavior(s)	Unprotected sex Multiple partners
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> • Low perceived susceptibility • Negative attitudes toward condom use.
Intended Immediate Outcomes	Increase risk perception Learn serostatus Develop risk reduction plan Increase access to needed diagnosis and treatment services
Type	ILI
Setting	Urban STD clinics
Is this intervention currently being provided in your planning area?	no
Rationale for Selecting this Intervention:	Provides opportunity for HIV testing and addresses condom use

Tab 7 – Intervention Selection Form

Subpopulation: FMS Men H

Ranking: 20

Name of Intervention	STD Testing
Risk Behavior(s)	Unprotected sex Multiple partners
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> • Low perceived susceptibility. • Lack of knowledge of where to go for services.
Intended Immediate Outcomes	Increase access to testing Increase knowledge of STD infection status Increase access to needed diagnosis and treatment services
Type	Other
Setting	Non-traditional test sites
Is this intervention currently being provided in your planning area?	limited
Rationale for Selecting this Intervention:	High STD morbidity
